Abstract: The work presented, recent to date, discovered invention, resulted from elaborating on my work "Treatise on Circle"* which concerns 3 Concentric Circles in Ratio to each other of 4/π, analyzing and comparing the results, for evident conditions for found Symmetries or Dissymmetries and consequently conditions for Harmony or Disharmony.

This Article is part [of mainly geometric configurations presentation] of my published book: [ISBN 978 – 618 – 83169 – 0 - 4], National Library of Greece-,04/05/2017, by Panagiotis Ch. Stefanides.

Keywords: Generator Polyhedron, Platonic – Eucleidean Polyhedra, Geometry, Polyhedral Angles ,Square Root of the Golden Section.
